9.0 SeismicCo Brackets and Anchoring Kits Earns ICC-ES Evaluation Report

ICC-ES ESR-#4233

9.0 SeismicCo Brackets and Anchoring Kits, manufactured by *9.0 SeismicCo*, recently received an evaluation report (*ESR#4233*) from ICC Evaluation Service (ICC-ES), providing evidence that the *Steel Brackets and Anchoring Kits* meet code requirements. Building officials, architects, contractors, specifiers, designers and others utilize ICC-ES Evaluation Reports to provide a basis for using or approving *Steel Brackets and Anchoring Kits* in construction projects under the *International Building Code 2018, 2015 & 2012*.

ICC-ES thoroughly examined *9.0 SeismicCo* product information, test reports, calculations, quality control methods and other factors to ensure the product is code-compliant.

After several years of designing and manufacturing anchor brackets and pre-design anchoring kits we are proud to say that we have received ICC recognition for our product line. Structural Engineers around the world now have an independent review and report that they can trust when selecting products for anchoring all types of equipment.

A nonprofit, limited liability company, ICC-ES is the United States' leading evaluation and testing service for innovative building and plumbing products, components and systems. ICC-ES [Evaluation Reports](#) (ESRs), [Building Product Listings](#) and [PMG Listings](#) provide evidence that products and systems meet requirements of codes and technical standards. Reports from both listing programs are now accepted in Canada. ICC-ES is a subsidiary of the [International Code Council](#)® (ICC®). For more information, please visit www.icc-es.org.

With the approval of ICC-ESR-4233, this now gives Structural Engineers several options in brackets for seismic anchoring of equipment.

PIN 68 was recently issued by OSHPD on 3/4/2020. 9.0 Seismic Co ICC-ESR-4233, helps to meet this new standard in anchoring brackets.

Approved Brackets Include:

Wall Mounting Brackets in 1/4" and 3/8" Thickness

Floor Mounting Brackets in 1/4", 3/8" and 1/2" Thickness

We also have Approved kits:

Helm10-S for single door Helmer Refrigerators/Freezer

Helm10-D for Double door Helmer Refrigerators/Freezer

(Helmer Refrigerators/Freezer now come predrilled for attaching these Kits)

KBL1001 Leveling Leg Capture Anchoring

LRF1005 Lab Freezer Floor Anchoring

DRF1006 Domestic Refrigerator/Freezer Floor Anchoring

DRWF1004 Domestic Refrigerator/Freezer Wall & Floor Anchoring
